Wireless Intuition-XS
ACK-540 ALU+RF

The Keysonic Wireless Intuition-XS is a wireless mini-keyboard in an exclusive design promising high quality due to the brushed, full aluminium body.
It has a far-ranging and reliable radio-frequency transmission at 2.4 GHz up to approx. 5 m away from the PC and a new radio-frequency technology to simplify the connecting process via one way synchronisation. To synchronise the keyboard with the RF-receiver only the button on the bottom of the keyboard needs to be pushed.
This keyboard with it's integrated Smart-Touchpad and the extremely flat construction with built-in hand cushion as well as tilt feet for the adjustement of the tilt angle is ideal for Digital Living Rooms (HTPC) as well as for training, conference and presentation facilities with high-end requirements etc.
